Welcome to

The Merton Primary School

The Merton Primary School is a happy school with a wonderful, friendly atmosphere. We have committed and hardworking staff who put the needs of the children at the heart of their thinking and decision making.

Within a safe, inclusive and nurturing environment, our children are encouraged to develop positive attitudes. Everyone is treated equally and individual differences are accepted and catered for. We have high expectations of all our children and support them as they develop academically, socially and emotionally. We expect that they will become independent learners who can also work with others in a climate of mutual respect.

We live in a rapidly changing world and one of our greatest tasks is to help our young people to develop skills and attitudes that will enable them to realise their full potential, whatever path they take. It is our aim to inspire our children and empower them to follow and fulfil their dreams.

We always aim: To be the best we can be.
