

Support

At the beginning of the year, we tried to set up 'Parentchat' sessions for wellbeing and family support in school. We listened to your feedback– you want to engage but for many reasons, finding the time to come into school was difficult.

So we have put together an exciting new online project called

'THE WELLBEING FAMILY FORUM'

which will be available on our school website from after February half term.

It will be full of advice, information, and most importantly– an extensive list of contacts that can signpost you to the appropriate support.

We will update it regularly – and also welcome any additions that you recommend for other parents.

WE WILL CONTACT YOU AGAIN WHEN THE FORUM IS LAUNCHED. KEEP CHECKING SCHOOL EMAILS AND LETTERS.
