

# The Merton Primary School

To be the best we can be.

## Weekly Learning Review - Year 1 24.9.21

In Maths this week we have been sorting different items into groups depending upon different criteria. For example, minibeasts with wings and those that have no wings! We have also been learning to write numbers as numerals and words. We have also represented different amounts using counters, numicon pieces and cubes.

one	two
three	four
five	six
seven	eight
nine	ten
zero	

In English this week we have been learning the story of Sharing a Shell and can orally retell it using actions to accompany the story. We have learned to draw a story map to help us to write a recount of the story. Alongside this we have been practising correct letter formation using run ups and run outs. We have worked hard to start each run up on the line.

We have been practising curly caterpillar letters this week!

### Other:

We have been scientists this week and have found many invertebrates living in our school grounds. We have learned that vertebrates have a backbone and sorted different animals into vertebrates and invertebrates.
