

The Merton Primary School

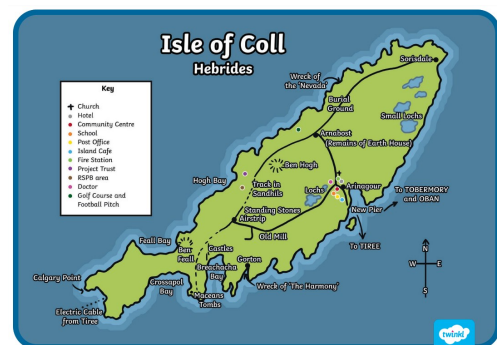

To be the best we can be.

Weekly Learning Review - Year 1 16.10.21

In Maths this week we have been learning to use 'is greater than' and 'is less than' symbols. We have been learning to order sets of numbers from smallest to largest and also spent time placing these on a number line. We have been learning to think about the position of numbers on a numberline for instance we know that we will find 5 in the middle, half way between 0-10.

In English this week we have been learning to read and write information about Coll. We have used this learning to help us create our own Fact File on the Isle Of Coll. We used subheadings to write about the Human and Physical Features of the island.

Other:

- This week we had our last multi skills lesson. After half term we will be starting Smarty Pilates.
- In Geography the children have been using all of their learning so far on human and physical features to create their own island and maps.
- We are so proud of how Year One have settled this half term. We hope you all have a lovely break and please continue to work hard at home on your reading, tricky words and homework.
