

The Merton Primary School

To be the best we can be.

Weekly Learning Review - Year 2 15.10.21

In Maths this week:

We started our addition and subtraction unit of learning this week. The children started by checking calculations using the inverse operation. They used known facts to calculate other addition sentences. Finally, they tried solving some addition word problems.

In English this week:

This week was all about poetry! Last week it was national poetry week so we were inspired by this to create our own Autumn Poetry! The children looked at autumn poems—they discussed what they liked about the poems and they tried to understand the words used. The children used expanded noun phrases to describe autumn objects eg. leaves, conkers, pinecones etc using these words they then went on to write their own autumn recipe poem.

Other:

- Science: We finished our unit of learning about materials the children recalled their learning by showing the teachers what they had learnt.
- We hope the children have a wonderful half term break and feel well rested when they return!

Homework

- Spelling homework: Please practise the spellings. They are given out on a Monday and are to be returned the following Monday for your spelling test.
- Maths homework: Big Maths Beat That. Homework given out on a Friday and to be returned the following Friday. We are giving the children 1 minute to complete the Big Maths Beat That homework.
