

The Merton Primary School

To be the best we can be.

Year 4 Weekly Learning Review

Week beginning 11.10.21

In Maths this week we have:

- Been assessed on the topics taught so far this year.
- Practised a range of different problem solving questions.
- Practised our rapid recall of multiplication and division facts.

In English this week we have:

- Enjoyed reading a poem before writing our own with a similar structure.
- Continued to read our class text *The Miraculous Journey of Edward Tulane*. We all agreed that it gets very emotional!
- Been practising our neat, joined up handwriting.

Other:

- In science, we went on a hunt around school identifying different plants. We looked at the difference between flowering and non-flowering plants.
- In art we used watercolours to paint a picture inspired by Monet.
- Developed an understanding of peer pressure and how we should respond if we experience negative peer pressure.
