

Year 6 - Autumn - RE Knowledge Organiser

What I already know...

A basic understanding of the creation story as described in the bible.

That Christians:

- ⇒ Believe that God created the heaven and the earth
- ⇒ Celebrate God as Creator through harvest, art and music

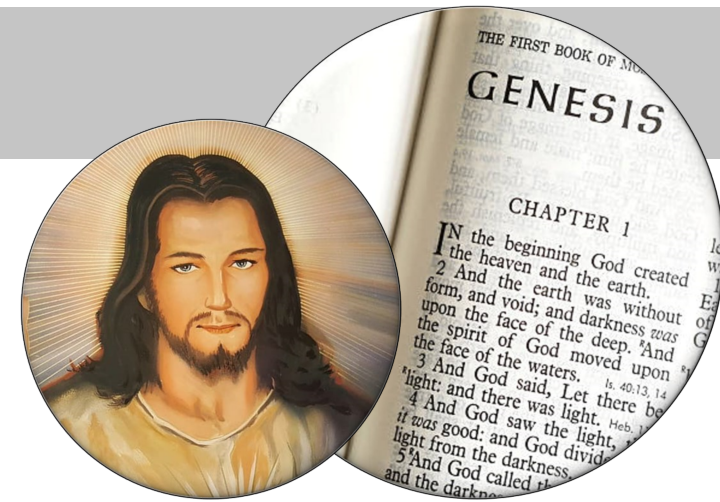

What I will learn...

- The importance of Creation on the timeline of the 'big story' of the Bible.
- To make clear connections between Genesis 1 and Christian beliefs about God The Creator.
- To show understanding of why many Christians find science and faith go together.
- Weigh up how far Genesis 1 creation narrative is in conflict or is complementary with a scientific account.

Key Vocabulary

creationism	The religious belief that nature, and aspects such as the universe, Earth, life, and humans, originated with a god.
Genesis	The first book of the bible describing the creation of the heavens and earth.
Big bang theory	The scientific theory that the Universe began in a Big Bang about 14 billion years ago.
Conflicting	Where two things are in opposition to one another.
Complementary	Where two things complete or

Making a difference at The Merton

In the first of our big questions in Year 6, we will look at why many Christians find that science and faith go together. Children will explore the story outlined in the book of Genesis and interpret what it says about God and human nature. We will also learn about scientists who are also Christians

We will then use our debating skills to weigh up how far the Genesis 1 creation narrative both conflicts and complements the scientific account.

Making a difference at home

Choose a clear night to gaze up at the sky together. What do you see? How does it make you feel? Consider how often we stop to wonder at how amazing the world is and how we might treat the planet differently if we did it more regularly.
