

The Merton Primary School

To be the best we can be.

Weekly Learning Review - Year 4

Week beginning 21.11..22

In Maths this week we have been learning about:

- The 11 and 12 times tables.
- What happens when we multiply numbers by 1 and 0.
- What happens when we divide numbers by themselves and 1.

In English this week we have been:

- Planning and writing our own story where a child travels to a different land to save someone or something.

Other:

- in Geography, we have been comparing Greece and England. Thinking about lots of things like which country is warmer, which country is bigger, which has the larger population.
- In computing, we have been learning about podcasts: thinking about what they are and how they are recorded. We then started to think about writing and recording our own podcast.
- In PE, we have started learning about Samba dancing and have been having fun listening to the energetic music and learning some moves.
- In Science, we have been classifying vertebrates and invertebrates based upon their physical features.
- In History we are continuing our learning about Ancient Greek Gods and Goddesses.

Homework

This week children will have received some spellings and maths to practise. You might also want to support our computing work, by seeing whether you can find an interesting children's podcast to listen to.
