

Year 2 - Spring - PE Knowledge Organiser Team Building

What I already know...

In Year 1 the children were introduced to team building and they followed simple instructions. They listened to others and suggested ideas to solve simple tasks. They learnt new games and tried to learn the rules.

What I will learn...

Team Building

- To follow instructions carefully
- To try and solve challenges successfully
- To share ideas and help to solve tasks
- Work co-operatively with a partner and a small group
- To show honesty and to play fairly
- To use, follow and create a simple diagram / map.

Making a difference at home

The personal skills you have been developing in PE are vital life skills as you grow up. Remember to use them at home, teach a sibling to take turns, remember to take turns yourself when playing games. Listen with care to your adults. Maybe you could plan a walk or set up an obstacle course in your garden and explain clearly to a friend or someone in your family how to follow the trail?

Key Vocabulary

Solve	To find an answer to, explanation for, or means of effectively dealing with (a problem or mystery).
Support	To give help and guidance to others.
Map	A representation of an area.
Direction	To determine where things are in relation to other things
Co-operate	The action of working together
Communicate	To share or exchange information, news, or ideas.

Making a difference at The Merton

At the Merton we believe that working collaboratively is a vital skill our children should learn. Team building games are a great tool for helping our pupils learn to work together, listen carefully, communicate clearly and think creatively. This unit gives our pupils the chance to get to know each other, build trust as a class and develop vital life skills. Our vision thread 'to build positive/collaborative relationships' is nurtured here and children see the power of collaboration and the difference it makes the mental wellbeing of their friends and themselves as well as harnessing the power of collaboration in terms of a successful outcome. Team building games are a great tool for helping children to learn to work together, listen carefully, communicate clearly and think creatively.
