

# Getting ready to start school

Soon, I will be starting school. There will be lots of new and exciting things to see and do.

The names of the classes are the Bees and the Ladybirds.

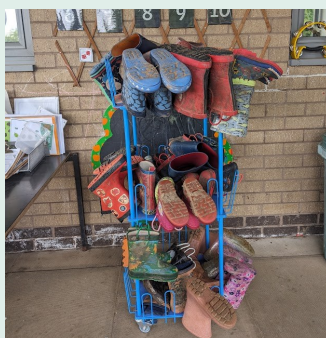

There will be lots of children in my class who I will be able to make friends with.

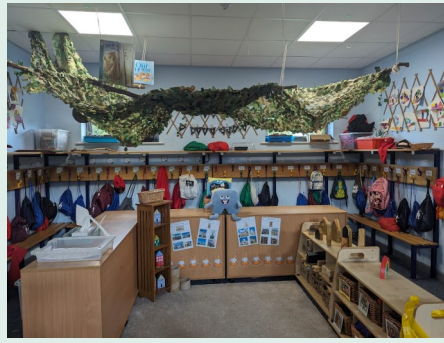

The inside of the classrooms look like this.

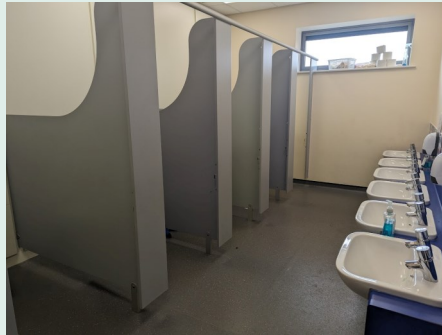

I will come in through these doors.

My wellies are kept in the racks.

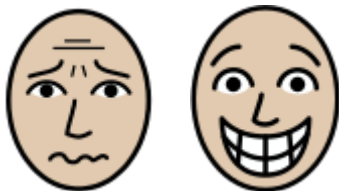

If I have a packed lunch, it is kept on the trolley and I put my coat in the cloakroom.

The toilets I use are next to the classroom.

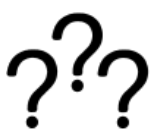

We will have time to learn and play outside.

It is normal to feel both excited and nervous about starting school.

We will do lots of fun work this year. There will be lots of new learning but the adults will help me.

If I have any questions, I can ask an adult. They will be able to help me.
