

Year 4 - Autumn 1: Computing Knowledge Organiser - Audio Editing

What I already know...

- How to save and retrieve a file.
- That some sounds can be recorded and edited.

What I will learn...

- That there are many different steps needed to be done to create a podcast.
- To write an effective podcast.
- To edit an audio recording.
- To combine audio clips.
- To evaluate a podcast they have created.

Key Vocabulary

Editing	Making revisions to the recording.
Devices	A machine
Audio	Sound
Input device	Something that is used to put information on the computer.
Outputs	Something that sends information out from a computer.
Podcast	a digital audio file made available on the internet for downloading to a computer or mobile device
Exported	To save a copy of the current open document, database, image or video into a file format required by a different application.

Making a difference at The Merton and beyond

Children will learn about how podcasts are a fun and easy way for people to share their knowledge and ideas with the world. Children will learn how there are many different jobs associated with podcasts including: writing, editing and presenting. They will have a chance to write their own podcasts before recording and editing them.

Computing Skills needed to be a podcast maker.

Disciplinary Knowledge: Computing skills I will learn...

- To use audio recording software
- To save and edit audio files
- To export audio files
